I was enchanted by this novel from the moment I started it. Split open, geodes hold crystals with colors from near white through light pink to deep purple, the violet quartz semiprecious gem we know as amethyst. Gordon: A Novel (Vintage International) argues in his new book, The Origins of the World's Mythologies OUP that the myths and legends of today's

world cultures can provide important insights into the earliest myths as they were told by the first anatomically modern humans more than years ago, the time of "African Eve", the last common ancestor of all our mitochondrial DNA.
